diagnosis of tumors of the head and neck (Sato et al). 2001;92:228-35

**Thermography**
MR imaging and thermography of facial angioedema: a case report (Ogasawara et al). 2001;92:473-6

**Third molar; *see* Molar, third**

**Tomography, x-ray**
Impact of conventional tomography on prediction of the appropriate implant size (Schropp et al). 2001;92:458-63

**Tomography, x-ray computed**
Beam geometry and localization of structures (Ludlow) (Letter); (Morant et al) (Reply). 2001;92:364-5
Bone volume after secondary bone grafting in unilateral and bilateral clefts determined by computed tomography scans (Van der Meij et al). 2001;92:136-41
Detection of the apical lesion and the mandibular canal in conventional radiography and computed tomography (Velvart et al). 2001;92:682-8
Effect of angular disparity of basis images and projection geometry on caries detection using tuned-aperture computed tomography (Abreu et al). 2001;92:353-60
Generation of TACT image slices using different reconstruction algorithms: effects on natural caries detection (Abreu et al). 2001;92:576-81
Quantitative analysis of normal major salivary glands using computed tomography (Heo et al). 2001;92:240-4

**Tongue neoplasms**
Whitish lobulated tumor of the tongue (Lee). 2001;92:367-9

**Tooth, impacted**
Third molar outcomes from age 18 to 26: findings from a population-based New Zealand longitudinal study (Kruger et al). 2001;92:150-5

**Tooth abnormalities**
A newly recognized syndrome of skeletal dysplasia with opalescent and rootless teeth (Kantaputra). 2001;92:303-7
Otodental syndrome: a case report and genetic considerations (Sedano et al). 2001;92:312-17

**Tooth erosion**
Syndromes with salivary dysfunction predispose to tooth wear: case reports of congenital dysfunction of major salivary glands, Prader-Willi, congenital rubella, and Sjögren's syndromes (Young et al). 2001;92:38-48

**Tooth extraction**
Histologic evaluation of immediate versus delayed placement of implants after tooth extraction (Schultes and Gaggl). 2001;92:17-22
Inferior alveolar nerve damage after lower third molar surgical extraction: a prospective study of 1117 surgical extractions (Valmaseda-Castellón et al). 2001;92:377-83
Oral hygiene and postoperative pain after mandibular third molar surgery (Peñarrocha et al). 2001;92:260-4
The relationship between radiologic interpretation and root tip fracture during tooth extraction performed by junior clinicians (Chen et al). 2001;92:470-2
Sequelae and complications related to dental extractions in patients with hematologic malignancies and the impact on medical outcome (Raut et al). 2001;92:49-55
Tooth removal and anticoagulant therapy (Diz Dios and Feijoo). 2001;92:248-9 (Letter)

**Tooth fractures**
The relationship between radiologic interpretation and root tip fracture during tooth extraction performed by junior clinicians (Chen et al). 2001;92:470-2
Vertical root fracture in endodontically treated teeth: a review of 25 cases (Llena-Puy et al). 2001;92:553-5

**Tooth root**
External root resorption of a primary molar: "incidental" histopathologic finding of clinical significance (Hicks and Flaitz). 2001;92:4-8 (Conference)

**Transplants**
Bone volume after secondary bone grafting in unilateral and bilateral clefts determined by computed tomography scans (Van der Meij et al). 2001;92:136-41
Comparative radiologic study of bone density and cortical thickness of donor bone used in mandibular reconstruction (Myoung et al). 2001;92:23-9
Reperfusion of autotransplanted teeth—comparison of clinical measurements by means of dental magnetic resonance imaging (Ploder et al). 2001;92:335-40
Resolution of oral ulcerations after decreasing the dosage of tacrolimus in a liver transplantation recipient (Hernández et al). 2001;92:526-31

**Trigeminal neuralgia**
The importance of routine magnetic resonance imaging in trigeminal neuralgia diagnosis (Goh et al). 2001;92:424-9
Mefloquine-induced trigeminal sensory neuropathy (Watt-Smith et al). 2001;92:163-5

**Trismus**
Two cases of unusually heavy odontolithiasis—one causing trismus (Pillai and Rawal). 2001;92:365-6 (Letter)

**Tuned-aperture computed tomography; *see* Tomography, x-ray computed**

## U

**Ulcer, oral; *see* Oral ulcer**

**Ultrasonography**
Ultrasound features of osteosarcoma of the mandible—a first report (Ng et al). 2001;92:582-6

## V

**Vitamin $B_{12}$ deficiency**
The relationship between gastric-oral *Helicobacter pylori* and oral hygiene in patients with vitamin $B_{12}$-deficiency anemia (Avcu et al). 2001;92:166-9

## W

**Warts**
Use of intralesional interferon-α for the treatment of recalcitrant oral warts in patients with AIDS: a report of 4 cases (Lozada-Nur et al). 2001;92:617-22

**Women**
Orofacial pain, jaw function, and temporomandibular disorders in women with a history of juvenile chronic arthritis or persistent juvenile chronic arthritis (Bakke et al). 2001;92:406-14
Prevalence of HIV-1 and oral lesions in pregnant women in rural Malawi (Muzyka et al). 2001;92:56-61

## X

**X-ray film**
A comparative evaluation of the diagnostic efficacy of film and digital sensors for detection of simulated periapical lesions (Wallace et al). 2001;92:93-7

**Xerostomia**
Oral symptoms at menopause—the role of hormone replacement therapy (Tarkkila et al). 2001;92:276-80
Prevalence of subjective dry mouth and burning mouth in hospitalized elderly patients and outpatients in relation to saliva, medication, and systemic diseases (Pajukoski et al). 2001;92:641-9
Salivary gland dysfunction: a review of systemic therapies (Grisius). 2001;92:156-62
Self-reported oral dryness and HIV disease in a national sample of patients receiving medical care (Younai et al). 2001;92:629-36
Type 1 diabetes mellitus, xerostomia, and salivary flow rates (Moore et al). 2001;92:281-91
